One last thing- small netiquette for our conference

- Please make sure before the session, that your **technical equipment** works well (camera, microphone etc.) – but you may also join us without an active camera or microphone.
- Please keep your **microphone muted** during the entire conference unless the moderator invites you (because it may be very irritating to hear background noise from 45 people ;)).
- We ask you, to please **use a headset** during the entire session to reduce background noise and echoes.
- If you want to participate in the discussion, please **use the chat function of MS-Teams only**. The moderator will invite you to speak.
- **Grab a drink** (water, coffee, beer, wine or whatever you want;))
